Power Dynamics, Inc.

42R35A Series Dual Fused IEC C14 Inlets

Power Dynamics, Inc. 42R35A Series C14 inlets are designed for numerous applications where fuses are needed with Line & Neutral protection.

Strong cord retention/withdrawal force and a heavy duty Thermoplastic body make it ideal for rugged applications.

Have Power Dynamics add the wire assembly for you!

Rating: 10Amps, 250 VAC

Operating Temperature: 80 degrees C max

Housing: Thermoplastic UL94 V-0

Terminals: Solder, 4.8 QD & 6.3 QD

Mounting: Flange, Snap-in (.8, 1.0, 1.2 & 1.5mm)

Fuse Type: (2) 5x20mm

Applications include medical, instrumentation, audio/video, consumer electronics, rack and panel electronics and anywhere fused power is required.

Contact us for **FAST** lead-times! All standard **IEC's, NEMA's & EMI/RFI Filters** are 8-10 Weeks. Competitors are quoting 20+ weeks!

EMI/RFI Filters & Power Entry Modules

Applications include medical, instrumentation, audio/video, consumer electronics, rack and panel electronics, test equipment, and power supplies

Filtered Power Entry

Choose from the Industries largest selection of EMI/RFI filters and power entry modules for standard, industrial and medical applications.

Made with durable polymers to withstand the rigors of extreme temperatures and abuse.

Crosses to Corcom, Shaffner, Schurter, Qualtek and many others

UL & International rated versions from 1A to 250A single and dual stage

Water Resistant versions!
